## CONTRACTS ARE CLOSED

**Grading on I. & C. Extension  
to Connersville to Begin  
In a Few Weeks.**

**The Right of Way Is Now Prac-  
tically Complete—Probable  
Service In Fall.**

Attorney Claude Cambern, of this city, chief counsel for the I. & C. was at Connersville, Monday, and closed the deal for the property in McFarlandtown, which will be put to the company's use. The property of Henry Stoops and wife, W. C. Elwood and wife, Mrs. Margaret Hauk and F. T. Roots were all signed over to the I. & C. company and for which Mr. Cambern paid out about \$15,000 in checks.

Mr. Cambern states that the right-of-way for the line from this city to and through Connersville is practically complete and that when the work of construction is commenced, there will be no drawbacks. Within a very few weeks the grading work will be started, and as the distance is not far, the company expects to begin laying the tracks by the middle of summer. The company is making no promises as to when it will be running its cars into Connersville, but it hopes to have the service started late in the autumn if possible.

The grading tools at Morristown, including the two miniature engines and trains of dump cars are being loaded on cars preparatory to bringing them to a point east of town, where they will be unloaded and put to work. Large gangs of men will be placed along the right of way and the work will proceed along the same lines as it did from this city to Indianapolis.

The work on the line only awaits the return of Charles L. Henry, president of the company, from California. Preparations are being made to contract for the bridges to be built on the Connersville extension. All of the bridge work will be of concrete and steel, and steel used only on the longest arches. One of the largest bridges will be necessary across Williams creek, where a concrete arch about fifty feet in length will be erected.

Because of the small clearance given under the Big Four and Belt tracks, just east of Indianapolis, the large cars can not now be taken into that city, but passengers must transfer to smaller cars. This difficulty, it is said, will be obviated within three or four months, when arrangements will have been made with the two steam lines for a greater clearance. The Rushville cars will then be brought directly into the traction terminal station.

## SEWERAGE SYSTEM FOR GREENSBURG

**The City Council in That City  
Takes Proper Action at a  
Special Meeting.**

The city council of Greensburg has agreed on an improvement which will place the city far ahead of Rushville from a sanitary point of view. The council at a special meeting decided to construct a general sewer system in that city. Already ten acres of land have been purchased at \$175 per acre. This is to be used for the disposal tanks. The cost of the entire plant including the purchase of the land, the putting in of the drains, etc., will not exceed \$150,000. The system will be put in under the new improvement law as passed by the last legislature. This sewerage system will improve that city 100 per cent, and is something that will have to be done in Rushville sooner or later—and the sooner the better.

## THE CASH RETURN

**The Value of an Education as  
Computed in Money for a  
Lifetime.**

The average educated man, says an exchange, gets a salary of \$1000 a year. He works forty years, making a total of \$40,000 in a lifetime. The average day laborer gets \$1.50 a day, 300 days in a year, or \$450 in a year. In forty years he earns \$18,000. The difference, or \$22,000, equals the value of an education. To acquire this earning capacity requires twelve years at school, of 180 days each, or 2160 days. Divide \$22,000, the value of an education, by 2160, number of days required in getting it, we find that each day at school is worth a little more than \$10 to the pupil.

## THE COUNTY ASSESSORS

**Will Hold a District Meeting  
at Connersville on the  
25th of March.**

There will be a district meeting of county assessors, comprising the counties of Rush, Shelby, Decatur, Fayette, Union and Franklin held at the court house in Connersville Saturday, March 25th. The meeting is for the purpose of comparing averages with the different counties of their assessments that have been made to date with a view to get a uniform assessment throughout the State. Tax Commissioners Martin and Wingate will be in attendance at the meeting to give instructions and aid the assessors with their work. It is especially desired that all members of the county and township councils attend this meeting.

## IS THOUGHT TO BE IN THIS CITY

**George Kencelle of Valparaiso  
is Wanted at Home at  
Once.**

Marshall Craig today received a letter from Mrs. Allie Radkey, living at 66 Main street, Valparaiso, which states that George Kencelle is missing and is thought to be in this city. Kencelle left Valparaiso saying that he was coming here to work, but all efforts to get a letter to him have failed.

The police today were unable to locate the man. He is wanted at home at once on account of the dangerous illness of a near relative.

## WOUNDED HIS VICTIM TWICE

Muncie, Ind., March 14.—Delmar Bowen, eighteen years old, who had been dissipating, was ejected from a cafe at Albany and, noticing John Dockover, twenty-two years old, in the act of alighting from a buggy, began shooting at him. Two bullets struck his victim, one in the stomach and another in the lungs, and Dockover was removed to his home at Selma in a presumably dying condition. Bowen barricaded himself in a livery stable and defied arrest, but he was forced to surrender by Marshal Stone. Bowen is said to have been inspired by jealousy, but the young woman who is said to be the object of affection for both young men makes a positive denial.

## THE WARRENTS BEING SERVED

**Sheriff Bainbridge and De-  
puty Sheriff King are  
Very Busy.**

**Two Men are in Jail and Several  
are Out Under Bond—All  
Kinds of Offenses.**

Sheriff Bainbridge and his deputy, Will King, are kept very busy serving warrants on the indictments returned by the grand jury and are either drawing up the bonds or clapping the men in jail.

James Barrett, proprietor of the Exchange Bar, heads the list with twenty-three indictments returned against him. These indictments are for practically every offense that may be committed in a saloon. Barrett gave bond in the sum of \$50 for each charge, with Henry O'Neil as surety.

Eight indictments were returned against George Crim, principally for running a gaming house. His bond was fixed at \$50 for each charge. He was unable to give bond and was committed to jail.

Denny Ryan received fourteen indictments for gaming and selling liquor to minors. He gave bond in the sum of \$50 for each charge with Glen Miller as surety.

Thomas Sullivan was indicted twelve times for keeping a gaming house, and allowing minors to play pool. He gave bond in the sum of \$50 for each offense with Harvey Cowing as surety.

Charles Bernstein was indicted three times for being a common gambler, and running a gambling device. George Wingerter went on his bond.

Walter Ryan was indicted once for frequenting a gambling room. H. G. Hackman signed his bond which amounted to \$50.

Three indictments were returned against James Casady for running a gaming house. Charles Hugo went his surety in the sum of \$150.

John McCarty was indicted four times for selling liquor to minors and running a gambling device. D. D. Powell went on his bond.

Sam. Webb has had three warrants served on him for assault and battery, drunkenness and profanity, but more will follow as the grand jury returned several indictments against him. Sam is in jail.

An exchange says that alcohol will remove stains from summer clothes. The exchange is right. Too frequent application will remove the summer clothes, the spring, autumn and winter clothes, the household furniture, the eatables, the smiles and the happiness. As a removal of things alcohol has no equal.

## ONE YEAR OLD TO-DAY

**T**O-DAY one year ago, the first number of the DAILY REPUBLICAN made its appearance. It was started with some misgivings, as the daily field had already been occupied, but the publisher thought the time had arrived for the "Old Reliable" paper of Rush County—the REPUBLICAN, which has been a welcome visitor in the homes of Rushville and Rush County for more than a half century, should move up a notch in the scale of progress and issue a first-class up-to-date daily edition.

In the first issue of the DAILY REPUBLICAN it was announced that it was aimed to make it "primarily a local paper, covering the city and vicinity in the best possible manner, and that the public would receive our best efforts so that the paper would please its readers and maintain their confidence, respect and support." How well this was realized, it is only necessary to state that in less than a year the DAILY REPUBLICAN was in the lead in point of popularity and circulation, and the publisher is sincerely grateful to its patrons for the hearty support and co-operation.

## IT IS AT AN END

**The "Don't Publish" Marriage  
License is Now Difficult to  
Obtain.**

It has been a common practice with timid swains to request county clerks not to publish the fact that marriage licenses were procured, and often the clerk has good-naturedly complied, though really it is questionable whether he has a right to do so, as a public record is for public uses; and the public has come to look in its newspapers for whatever appears on the records.

Anyway the custom of secrecy ought to cease, for marriage is something a young couple ought to be proud and not ashamed of. Often, too, suppression of facts has led to sorrow and trouble. But under the new law there will be no "Don't publish," for the whole license machinery will be more exacting and intricate. And it will be a good thing. Ten reasons why every marriage license should be published can be found for one showing why they should not. The "don't publish" business is a has been.

## LADIES MUSICAL

**Interesting Program Rendered  
in the Assembly Room of the

## At the Danger Point.

Evansville, Ind., March 14.—The Ohio river is rising here and is one foot from the danger line which will be passed today. The weather observer at Cairo, Ill., says the river will continue to rise until Friday.

## PERMANENTLY ORGANIZED

**New Oratorio Society Holds  
Its First Meeting at the  
Court House.**

**Officers are Elected and a  
Constitution and By laws are  
Adopted.**

The Oratorio Society met last night at the assembly room at the court house for the purpose of completing the organization, adopting a constitution and by-laws, and electing officers for the ensuing year. There was a good attendance, showing that the singers, and in fact all music loving citizens of our town, are interested in the new work and anxious to see it a success.

The purpose of the society as designated by the constitution, which was unanimously adopted, is to give oratorio properly. The society shall consist of members in two classes, active and associate. The active members will compose the chorus, and will be chosen by the director. The associate members will co-operate with the chorus, and direct their efforts toward its success. It shall be a purpose of no little importance in the society to foster a friendly feeling of union among its members.

The officers as elected for the year are: Ernest Thomas, president; Jesse Pugh, vice president; Miss Mae McFarlan, secretary and treasurer; E. F. Miller, director.

This work, which Mr. Miller has taken up so earnestly and nobly, is perhaps too easily underestimated. A greater work is being done by no minister in the city or in any other city. There is nothing which can touch the hearts of men more deeply and have such an inspiring and ennobling influence upon them as music. And who can measure the influence then of the great oratorios—the most sacred, the most nearly divine of all music. Then it is easily understood what the people of Rushville owe to Mr. Miller, who gives so willingly his time, his untiring efforts, and his remarkable ability for the benefit of our citizens.

This is Rushville's opportunity to enter one of the great, if not the greatest, field of high art. Let our people rally to the support of the leader of this great movement, and direct both thought and effort to making the Oratorio Society a grand success.

## Jealousy Inspiring Cause.

Clinton, Ind., March 14.—Edward Woods has been fined \$100 and costs and sent to jail for ninety days for shooting five times at James Leonard, jealousy being the inspiring cause.

## THE AUTOMOBILE LAW

**Its Provisions are Fair all  
Around—It Will be Effective  
in June.**

Governor Hanly has signed Senator Crumpacker's bill regulating the running of automobiles. This prescribes a speed limit of eight miles in the congested parts of cities, fifteen miles in the scattered portions and twenty miles in the country.

It also provides that machines shall be brought to a full stop at signal of the hand by drivers of teams, and for the registration of automobilists of the State with the Secretary of State.

The bill is satisfactory to autoists, as it establishes uniformity of speed rates throughout the State. No city or town is also allowed to pass ordinances in conflict with the provisions of the measure. A fine of from \$1 to \$50 is prescribed for violation of any of the provisions.

The law will be in force with the publication of the acts about June 1st.

## RAILROADS PROSPEROUS

The decision of the directors of the Pennsylvania railroad company to spend \$75,000,000 for construction and equipment this year was quite a surprise. The list of improvements and the supplies to be purchased it seems was approved at the meeting of the board of directors last week.

The Pennsylvania has ordered about \$25,000,000 of new equipment this year, including 335 locomotives from Baldwin's; 15,000 freight and passenger cars from various companies and 10,200 tons of heavy steel rails. The reason assigned for the large appropriation is the desire of President Cassatt to get the system in the best possible condition for the heavy traffic the coming fall and winter.

## A CRISIS IS NOW AT HAND

**Bedford People Insist That  
Something be Done in  
Schafer Case.**

Bedford, Ind., March 14.—The grand jury will, it is thought, continue the investigation of the Schafer murder mystery all of this week, and it begins to look, from the number of witnesses going before that body, that two weeks may pass before the task ends. It is evident that the jury is working a drag net and no man or woman in Bedford who has not been before the jury will be surprised by a summons to appear for examination. It seems that the grand jury is going over the whole tragedy again, although it is covering ground which two other grand juries went over and which had paths cut through it by numerous detectives months ago. It seems to be the purpose of the jury not only to see whether Elmer Browning, in jail on the charge of having confessed that he and Frank Evans killed Sarah C. Schafer, is guilty, but it is trying to spread the investigation in all directions to see whether the drag net will gather up anyone else.

Citizens of this town are awakening to the fact that the public is aroused over the Schafer case. The reports are coming to Bedford that in the small towns, at crossroads, and at all points where farmers meet, there is a growing demand that the Schafer tragedy be no longer neglected—that the man who killed the school teacher be brought to justice. The people of Bloomington are taking as much interest in the case as the people of Bedford. In Monroe, Jackson, Washington, Orange, Martin and Greene counties, over the Lawrence county boundaries, the Schafer case seems to be the topic among the country people. The chief question is: What have the Bedford or Lawrence county authorities been doing to find the man who took the life of a cultured young woman? It is thought that a crisis is at hand in this case and that it is time to clear it up for good and all.

## MAY COMPETE WITH THE I. & C.

**The C. H. & D. is Said to be  
Arranging For an Hour-  
ly Service.**

**Between Rushville and Indiana-  
polis at the Rate of \$1.00 For  
the Round Trip.**

The information has leaked out from well known C. H. & D. officials to the effect that that road would at an early date establish an hourly train service from this city to Indianapolis in competition with the Indianapolis & Cincinnati Traction company. The new traction cars are making but slow time at present and the competition thus far is not potent. When the tracks of the interurban are securely ballasted, however, the steam road will have a worthy adversary.

Nothing official can be learned about the new service, but it is rumored that with the establishment of these local trains, the rate will be severely cut and the round trip from this city to Indianapolis will not exceed \$1.00.

If this service is started as planned, it will probably be extended to Connersville when the I. & C. company completes its tracks to that city.

## SHOT BY WOMAN

Hammond, Ind., March 14.—As the result of a quarrel at 47 Halstead St., John Peterson, a well-known business man of this city, was shot in the back by Lizzie Williams. The wounded man is at the county hospital, and the attendant physicians report his condition as serious. After her victim fell the Williams woman ran from the house and escaped. Witnesses say that Williams quarreled with the woman for an hour, and he was in the act of leaving when the shooting occurred. His wife is prostrated over the affair.

## SOUND ADVICE

Elkhart, Ind., March 14.—Arthur Osgood, eighteen years old, convicted of petty forgery, cards the papers as a warning to other youths: "Try more fully to appreciate the unselfish love of your parents and always follow their advice."

## BY THE WAYSIDE

A bashful man from Connersville was invited over to dine a few Sundays ago with his girl in this city. He sat opposite a mirror and discovered that he had forgotten to comb his hair. Then he dropped his fork, and as he stooped to pick it up he upset his coffee. Matters went from bad to worse, until finally in despair he quit eating and put his hands under the table. The loose ends of the table cloth was in his lap. He touched it and turned pale. He thought it was his shirt, and that he had in his excitement while dressing forgotten to put the garment in his trousers. That accounts for further embarrassment. He hurriedly stuffed the supposed shirt inside his trousers. Afterwards when the family arose from the table there was a crash. The dishes lay on the floor in a broken mass. The young man pulled three feet of the table cloth out of his pants and took to the woods.

Later—He is still going.

RUSHVILLE, IND. MAR. 14, 1905.

Today the Daily Republican is one  
year old and is a healthy and vigorous  
youngster.

Getting even is a mighty unprofit-  
able piece of business. No success ever  
yet crowned the efforts of any man to  
get even. The usual result is to get  
farther behind the other fellow instead  
of even with him.—The Jeffersonville  
Reflector.

■ The decrease of \$19,000,000 in exports  
of farm products the past year seems  
to have been mostly owing to less  
wheat to sell, without a corresponding  
rise in price. From the farmer's  
point of view it is, no doubt, to his  
advantage that the increasing popula-  
tion provides a home market for more  
and more of his produce, yet it is not  
wholly pleasant to witness our export-  
ers shipping the precious metal in-  
stead of the golden grain to make even  
the balance of trade.

While Chicago and St. Louis may  
think that the people are weary of  
world's fairs, other localities have a  
different view. Portland, Oregon will  
hold one the coming summer; one is  
booked for Jamestown, Va., in 1907;  
San Francisco proposes to celebrate  
the discovery of the Pacific in 1913  
and Chattanooga has hopes of a cele-  
bration in honor of the fiftieth anni-  
versary of Appomattox in 1915.  
Paris wants another in 1920, and the  
French have a way of putting their  
enterprises through. The prospects  
are good for five expositions within  
fifteen years, with but two nations  
heard from definitely.

The new German tariff which takes  
effect in 1906 threatens to shut off  
some lines of American exports. The  
duties on grain, meats and other  
products have been greatly advanced,  
in some cases as high as one hundred  
per cent. and in a few instances even  
higher, the avowed idea being to  
furnish greater protection to the agricul-  
tural interests of the German empire.  
The new tariff is so arranged that  
provision is made for reducing the  
various items through treaty, and  
even the reduced tariff will be in  
most cases considerably above the old  
rates. The advances apply to cotton,  
grain, beef, fruit, etc., which are  
leading articles of import from the  
United States. The cotton imports  
from this country increased three-fold  
in the ten years since 1894, and the  
new tariff doubles the duty on cotton.  
The duty on wheat and corn are also  
greatly increased.

### ANXIOUS APPLICANTS

Many Are Standing Expectantly Be-  
neath the Governor's Plum Tree.

Indianapolis, March 14.—Governor  
Hanly has a large number of appoint-  
ments to make, but only a few carry  
much salary. The railway commis-  
sioner positions, of course, are the  
most lucrative. Besides the railroad  
commissioners to be appointed, three  
members of the epileptic commission  
are to be appointed; four members of  
the commission to begin the work re-  
lative to the new hospital for the insane;  
four members of the board of veteri-  
nary examiners; five members of the  
Morton monument commission; five  
nurses as members of their newly cre-  
ated board; all these besides the regu-  
lar state house appointments—the cus-  
todian and his chief assistants, the  
chief engineer and the patrolmen.  
Most of the appointments will be made  
this week. It is said, although the  
terms of the adjutant general and the  
statehouse custodian do not expire till  
the middle of April.

Senator Carl Wood's bill for new  
judicial districts consisting of Jackson  
and Scott counties Ripley and Jen-  
nings and Washington and Orange has  
been signed by the governor. The old  
districts consisted of Washington, Or-  
ange and Jackson, and Ripley, Scott  
and Jennings, the former Democratic  
and the latter Republican. The dis-  
trict of Ripley and Jennings will prob-  
ably be Republican, while Orange and  
Washington will be slightly Democra-  
tic. Jackson and Scott will be solidly  
Democratic. The Republican and  
Democratic leaders in these counties  
were deeply interested in the bill.

Jackson and Scott were specified as  
the Sixty-first judicial district, but as  
a bill creating a separate district of  
Fountain county and naming it the  
Sixty-first was passed first, Governor  
Hanly was in doubt whether or not  
Senator Wood's bill was constitution-  
al. It was finally determined by him  
and Attorney General Miller that there  
is nothing in the constitution recogniz-  
ing the number of a district. There  
are already a number of candidates for  
appointments as judge of the new dis-  
trict.

In view of the prospective retire-  
ment of Union B. Hunt as private sec-  
retary to Governor Hanly to accept a  
place on the railway commission,  
there is considerable speculation as to  
who will succeed to the position he  
now occupies. Some party leaders  
suspect that it will be tendered to  
C. C. Lyons of Fairmount, chairman of  
the speakers' bureau of the Republican  
state committee. Ex-Senator Bert Og-  
born of Newcastle is also mentioned as  
the possible choice of the governor for  
the place. It is said, however, that  
both Lyons and Ogborn would like to  
have the secretaryship of the railway  
commission, which pays \$2,500 annu-  
ally. It was said today that the gov-  
ernor will probably not appoint John Mc-  
Cardle of New Richmond as a member  
of the railway commission, as many  
thought, but no reason is assigned for  
the change. It is said the governor  
has about made up his mind as to the  
commission and may announce it Wed-  
nesday.

An army of job hunters is camping  
on the trail of Governor Hanly. The  
number is even larger than expected.  
The report that the Governor would  
make appointments this week devel-  
oped a lot of dark horse candidates  
who are now working in the open.  
Congressman Holliday of the Fifth  
district and a number of the promi-  
nent Republicans from Brazil called  
on the governor in behalf of W. H.  
Zimmerman of Brazil, an applicant  
for a place on the railroad commis-  
sion. Ex-Congressman Robert Miers  
of Bloomington, called on the gov-  
ernor and asked him to name Dr.  
Samuel Quillin of Linton, as the Democ-  
ratic member of the commission.  
Miers has a second choice in W. C.  
Windstandley of Bedford, but neither  
will be appointed in spite of their  
excellent indorsement, as it is prob-  
able that the Democratic member will  
be an attorney.

### War to the Knife.

Chicago, March 14.—War to the  
knife between the Big Five of the  
beef combine and twenty-six firms and  
corporations classed as independent  
packers, will, it is asserted, begin in  
Chicago March 20, when the special  
federal grand jury begins its investi-  
gation of the affairs of the alleged  
beef combination. A fund of \$3,000,000  
has been raised to carry on the fight  
against the beef combine and set the  
claims of independent packers square-  
ly before the public.

### Robbers at Ft. Wayne.

Fort Wayne, Ind., March 14.—Bur-  
glars entered Fretberger's hardware  
store and stole \$500 worth of goods.  
This is the second hardware store in  
this city to be robbed of similar goods  
within a week.

### Will Be Rockefeller's Guest.

Lakewood, N. J., March 14.—Presi-  
dent Harper, of the Chicago Univer-  
sity of Chicago, is coming here to re-  
cuperate. John D. Rockefeller will meet  
him on arrival and has arranged for  
his stay.

An eight-hour day may be among the  
demands to be made by the mine work-  
ers of the anthracite region upon the  
expiration of the period covered by the  
award of the strike commission in  
1906.

gress of mothers were received at the  
White House by Mrs. Roosevelt.

vicinity are the worst known in many

### NEED OF EXPEDITION

Senate Finds That It Must Stick Close-  
ly to Business.

Washington, March 14.—The senate  
will do its utmost to complete the  
Santo Domingo treaty, ratify it and  
adjourn this week. This was mani-  
fested when the treaty was taken up  
in executive session yesterday after-  
noon. For more than an hour the  
senators discussed ways and means  
and finally agreed to meet at 11 a. m.  
daily in order to give time for a full  
discussion of the measure and still  
adjourn by Saturday. It is conceded  
that if the vote is delayed beyond that  
time a quorum of the senate could  
not be maintained. With the present  
number of absentees and the uncer-  
tainty as to the number that will re-  
turn to vote, the fate of the treaty  
cannot be foretold.

### Albert T. Patrick's Case.

Albany, N. Y., March 14.—Before  
the court of appeals today is being argued  
the appeal of Albert T. Patrick who  
was convicted of murder in the first  
degree in April 1902 on the charge  
of having caused the death of William  
Marsh Rice, a New York millionaire  
for whom he was confidential attorney.  
The defense asks for a new trial on  
the ground of newly discovered evi-  
dence and errors in the trial. An ef-  
fort will be made to show that Rice  
was not murdered at all but died from  
natural causes.

## UTTER DISASTER

That Kuropatkin's Army Is  
Thoroughly Licked Is  
Now Apparent.

### THINGS MAY BE WORSE

The Possibility Remains That the  
Army May Be Annihilated in Its  
Tie Pass Retreat.

Dispatches Today Leave the Fate of  
the Fugitive Army in Serious  
Doubt.

The Russian general staff reports  
that "The main body has already  
completed its retreat and the rear  
guard southward are falling back  
slowly."

What either the "main body" or the  
"rear guard" consists of has not been  
definitely fixed, but from the despatches  
from the press correspondents  
with the Japanese and Russians, the  
two combined must be but a small por-  
tion of the army which General Kuropatkin  
had gathered along the banks of  
the Shakhe and Hun rivers. And yet  
those who have reached Tie pass  
worn out from days of fighting and  
retreating are not out of danger, the  
Japanese, it is reported, having al-  
ready started another turning move-  
ment which will force the Russians  
out on the plains north of Tie pass  
where in their disorganized state they  
would be easy prey for the victory-  
flushed soldiers of the Mikado. The  
men who escaped are strengthening the  
fortifications in Tie pass but it  
is hardly possible that the pass can  
be held in the face of the overwhelm-  
ing forces opposed to the Russians  
and it is not likely that Oyama will  
rest satisfied with his victory at Muk-  
den as he did after Liao Yang.

As to the losses General Kuropatkin  
now admits that 50,000 wounded  
were carried off the field. This, with  
the 26,500 dead left on the field, the  
60,000 prisoners and the wounded left  
in the hospitals, comes somewhat  
nearer the latest Japanese estimates  
that the total Russian losses were  
155,000. At this rate Kuropatkin can-  
not have more than 100,000 effective  
fighting men with him. The Japanese  
report the capture of twenty-four more  
guns, sixty in all, a rather small num-  
ber considering the decisive defeat  
and the number of men captured. The  
Japanese losses have been remarkably  
light in view of the length and sever-  
ity of the fighting.

### SEEKING PARALLELS

History Points to Few Such Disasters  
as That of Mukden.

St. Petersburg, March 14.—Russia's  
"grand army" with the exception of  
the thousands killed or taken prison-  
ers on the plains and mountains  
around Mukden, is gathering slowly be-  
hind the fortifications of Tie pass,  
which were built as a refuge before  
the battle of Liao Yang, and is fever-  
ishly engaged in the work of reorgani-  
zation and further strengthening its  
lines. According to the general staff  
the main body has already completed  
its retreat and the rear guard south-  
ward is falling back slowly, keeping in  
touch with the pursuing columns of  
the Japanese. In the complete ab-  
sence of further information, it is dif-  
ficult to say whether the pursuit has  
slackened or is being conducted by  
only a portion of the Japanese, and  
military officials here hope that, as  
after the battle of Liao Yang, Field  
Marshal Oyama has paused to give his  
weary troops a momentary breathing  
spell while extending his railroad and  
other lines of supply to his new posi-  
tion and preparing for the next blow.

To the Russian army every minute  
is now valuable and the footsore and  
disheartened detachments, have been  
given scarce, an hour's rest before  
being set at work improving the de-  
fenses of Tie pass. It may be, how-  
ever, that even now they are being  
turned out of those positions.

Rumors are current that a wide  
eastward flanking movement which  
was begun before the battle is still in  
progress and on the other side it is  
feared that columns are moving north  
of Fakoman to take a position in the  
Russian rear.

General Kuropatkin still holds com-  
mand. An officer of the general staff  
said that he probably will not retire  
until some semblance of order has  
been restored. The question of his  
successor is still undetermined.

There are indications that the food  
supply at Tie pass is none too large.  
Immense quantities having been burned  
at Mukden; and Russian correspond-  
ents telegraph that they have had  
nothing to eat for two days. The  
troops, however, probably are faring  
better. The commissariat arrange-  
ments worked admirably during the  
battle and even at the height of the  
fighting the soldiers received warm  
food.

Telegrams from the Russian side,  
though inadequate as a basis for any  
detailed estimate of Russian losses,  
show that they have been extremely  
heavy, enough to cripple offensive op-  
erations for many months. General  
Kuropatkin admits that 50,000 wound-  
ed were carried off, but says nothing

as to how many killed, wounded and  
prisoners were left behind; and from  
his picture of a little handful of two  
officers and 150 men of the Imperial  
Rifles marching off, led by their gal-  
lant colonel, clinging to their standard,  
can be derived some idea of the losses  
sustained by the regiments that bore  
the brunt of the fighting. The exploit  
in the "bloody angle" of the Wilder-  
ness and in the battle of Antietam are  
scarcely comparable.

Another tragic picture of the retreat  
is related in connection with the retire-  
ment of General Rennenkampf's de-  
tachment from Oubenevusa with bare-  
ly one-third of its original strength,  
the brave soldiers breaking down and  
sobbing and kissing the bloodstained  
ground which they had been ordered  
to relinquish. The losses of officers  
is said to have been especially heavy  
and many of the higher and more ca-  
pable officers were killed.

### DEMORALIZED FLIGHT

How Russians Were Caught Napping  
by Wily Japs.

With General Kuropatkin's Army in the  
Field, Northeast of Mukden, via Fu-  
shun, March 14.—Every hour increases  
the magnitude of the disaster suffered  
by the Russian armies. Today 25,000  
dead are known to have been left on  
the field, making the casualties at  
least 100,000. Between fifty and sixty  
thousand prisoners, some seventy guns  
and enormous quantities of ammunition  
and provisions fell into the hands of  
the Japanese. The Japanese losses  
do not exceed those of former great  
battles, even General Kuroki's army  
losing only 5,000.

Field Marshal Oyama's plans com-  
pletely deceived General Kuropatkin.  
The Russian commander misjudged  
the positions and strength of the Jap-  
anese. He at first thought that Gen-  
eral Nogi's Port Arthur army was  
pressing his east flank and concen-  
trated a great force there. This force  
he was afterwards obliged to shift to  
Mukden, where it arrived in a state  
of exhaustion after a march and was  
unable to fight. A retreat from Muk-  
den began March 9. It became a  
demoralized flight when the Russians  
discovered that their egress was be-  
ing blocked by the Japanese infantry  
and artillery from the east. The rapid  
approach of the Japanese was a com-  
plete surprise to the Russians who  
expected that their retreat would be  
harassed only by the Japanese cavalry  
from the westward.

### MAKING PROGRESS

Russian Reform Movement Loses  
Nothing by Disaster at Arms.

St. Petersburg, March 14.—In the  
midst of all the confusion incident to  
the defeat of the Russian army in  
Manchuria, there is no pause in the  
great reform movement. The zem-

ALEXANDER GRIGOREVITCH BULOYIN, RUSSIAN SECRETARY OF INTERIOR.

stvos of various governments at a  
meeting held in Moscow and the Mos-  
cow Duoma have telegraphed Interior  
Minister Buloyin a request which is  
practically a demand, that they be re-  
presented on the commission formed  
under the Imperial rescript, and other  
local organizations are preparing to  
follow their lead. Minister Buloyin  
and his advisers are engaged in draft-  
ing the plan of the commission or as-  
sembly, but nothing has taken definite  
shape as yet.

### TERSE TELEGRAMS

Four robbers blew the safe in the  
bank of Benton, Ky., and got away  
with \$4,000.

Rumors of prospective peace nego-  
tiations between Russia and Japan are  
rife at Washington.

For the first time in fifty years the  
Democratic party at Bangor, Maine,  
elected a mayor Monday.

The national convention of the Re-  
tail Hardware Dealers' association is  
in session at Minneapolis.

George C. Cochran, assistant to the  
president of the Erie Railroad com-  
pany, is dead at New York after an  
operation for appendicitis.

The question of transporting and  
caring for the thousands of Russian  
prisoners is now engrossing the atten-  
tion of the Japanese authorities.

Four men blew open the vault in the  
bank at Genoa, O., and obtained be-  
tween \$25,000 and \$30,000 in cash and  
carried away papers valued at \$50,000.

The municipal treasury of Colon was  
robbed of \$3,000. The money was taken  
from an iron safe, notwithstanding the  
fact that the building was guarded by  
police.

Plans have been practically perfect-  
ed for a complete reorganization of  
the working force of the Panama canal  
commission involving changes from  
top to bottom.

Peace, regardless of the cost, is the  
cry at St. Petersburg. The Russian  
cabinet is appalled at Kuropatkin's de-  
feat, and it is declared that contin-  
uation of the war will mean dangers at  
home.

## A TRIBUTE TO RUSHVILLE

(By Grace Hiner.)

Rushville is a progressive town, Its like was never known before, For its people have got to business, And are hustling more and more.

It is a beautiful place, With its pretty green lawns and trees, And the noise of progressive business, Is like a swarm of bees.

In size, it is not the largest, But more progressive by far Than some of our largest manufacturing cities, That smell of paint and tar.

The merchants wear a cheerful smile, And trade dances to a brisk tune, When all the farmers come to town On every Saturday afternoon.

There is our handsome court house, The very finest in the State, There, all the public business is transacted, Little, big and great.

Then, there is the new electric interurban, Its history couldn't be told in a word; It comes down Morgan street, by Uncle Jeff's, And then jumps off onto Third.

I mustn't forget Churchill's big store, A very large building indeed; Say, young married man, go there, And buy everything you need.

And there is our power house, Just east of our handsome town, It's built of brick, and stone and iron, From the bottom to the very crown.

Then, there are our sweet young girls, They work and spin and weave, Their webs around the young men, That call around on every Sunday eve.

So keep a-going, old Rushville, And keep right at business, You can do nothing better, Then make a reliable progress.

### New Trial Will Be Demanded.

Cleveland, Ohio, March 14.—A new trial will be asked for in the Chadwick case on the ground of error in the admission and exclusion of testimony during the trial; error on the part of the judge in his charge to the jury; and that the verdict was contrary to law and the weight of the evidence. The motion will probably be filed tomorrow. Mrs. Chadwick has been resting quietly and has received no visitors. This morning she made application to go to her home to pick out her personal effects, which she asserts are exempt from seizure.
